Detailed Action

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claim 5 and 7 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 5 is vague in that it is unclear what portions of SEQ ID NO:1 comprise the "L1-TR" regulatory region. Without an indication of the boundaries of the L1-TR regulatory region, the metes and bounds of the claimed regions are unclear. This rejection is essentially maintained for reasons of record in the previous Office Action.

Applicants have responded to this rejection by indicating that the L1-TR promoter sequence comprises a transcription initiation site at nucleotide 170,099 of Gene Bank Accession No. NC_001345, a 17-bp OC box region found at nucleotides 170,130 to 170,147 of B95-8 EBV DNA and a STAT binding region found at nucleotides 170,115 to 170,123.

Applicant's arguments filed 3/14/07 have been fully considered but they are not persuasive. The indication of where the L1-TR promoter sequence is located in the GenBank accession number does not provide information as to where the L1-TR promoter is located in SEQ ID NO:1. The claims are reciting sequences relevant to SEQ ID NOs, not GenBank accession numbers. It is noted that applicants, in the instant amendment, amended claim 4 to recite where, in SEQ ID NO:1, the ED-L1 regulatory region was located and this amendment obviated the outstanding rejection

under 35 USC 112, 2nd paragraph against this claim. Applicants have not so amended claim 5. Also, if the ED-L1 sequence is located at the position in SEQ ID NO:1 as recited by applicants in amended claim 4, then the L1-TR promoter, which applicants indicate is found at positions between 170,099 and 170,130 to 170,147 and 170,115 to 170,123 in the GenBank accession number, would appear to be outside SEQ ID NO:1 (which appears to correspond to sequences 169,476 to 170,051 of the recited GenBank accession number).

Claim 7 is vague because it depends from canceled claim 6.

Any rejections not repeated in this Office Action are withdrawn.

Claims 1, 3-4, 8-10, 12-20 are allowed.

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of

Art Unit: 1636

the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
